APHE Nominating Committee  
Association of Professional Humane Educators

Dear APHE Nominating Committee,

I am committed to growing as a professional in the field of humane education, and I believe serving as a Board of Directors member with the Association of Professional Humane Educators would be an impactful opportunity to me and the organization. I would have the opportunity to contribute my knowledge, experience, and enthusiasm to the success of the organization's endeavors of empowering those who promote empathy through education and give back to this organization that guided me in my years as a humane educator. As a previous professional humane educator and a current fundraiser in animal welfare, I have valuable experience within the world of humane education and development, which is a skillset that would be a great benefit to this organization. As demonstrated by my success as a humane educator, experience in fundraising and organizing events, and passion for education and animal welfare, I am well equipped and prepared to accept the responsibilities of this role.

When I began my career at Dane County Humane Society as their humane educator in 2015, I was beyond excited – my love of education and animals had combined to be the perfect job! As the educator, I organized and led over 280 events which included birthday parties, tours, and camp programs at DCHS, teaching children and adults alike about my organization, animals, and compassion. In 2017, I led 286 education programs, reaching over 4,600 people in my community. APHE was an invaluable resource during my time as humane educator, providing me with tips, guidance, and support as I navigated that role. After almost three years of experience in this role, I was ready for a new adventure and fully entered the world of fundraising. However, I have stayed involved with the education department at DCHS, providing support to new staff, leading tours and presentation for my community, and spending time with campers.

Currently, as the Donor Relations Specialist at DCHS, I have honed my skills working with donors, businesses, and organizations in the community to support DCHS through fundraising, donation drives, and major events. These connections made through my current role have created strong relationships with businesses and donors, leading to donations of funds, time, and items to help DCHS care for over 9,000 animals a year. My fundraising experience would be beneficial to my role as a board member with APHE to help fund its mission and provide support to the development committee so scholarships, resources, and quality presentations and conference experiences can continued to be provided to members. I have also organized major events, with my largest event being Dogtoberfest. This event welcomed over 600 people and their dog friends, and involved securing venue and food vendors, sponsors, and local celebrities. It raised over \$15,000 for DCHS. This event planning experience would allow me to provide valuable support to the conference committee within APHE, and I am excited to use these skills to share the world of APHE with other educators.

A large part of my role as the Donor Relations Specialist includes marketing and advertising for the many independent fundraisers that support DCHS. I have created a variety of content, including informative flyers and website text. I have additionally acted as a spokesperson for DCHS in television appearances and radio segments, as well as through countless social media posts. The skills I have gained through this experience would allow me to share the successes of APHE through social media and other advertising outlets to support the marketing committee.

My firsthand experience with DCHS as a humane educator and fundraiser will make me a valuable member of the APHE Board of Directors. Please contact me with any questions through email ([acollins@giveshelter.org](mailto:acollins@giveshelter.org); [ashcollins180@gmail.com](mailto:ashcollins180@gmail.com)) or by phone (608-838-0413x167; 404-313-9716) should you need any additional information. I look forward discussing the position with you. Thank you for your time and consideration!

Thank you again,

Ash Collins

### 1. Why do you wish to serve on this board?

I am excited to give back to the world of humane education! When I entered this field after graduating with my Master's in Agricultural Leadership, I was so excited – I had found the perfect job! I loved teaching children and adults in my community about the positive impacts of Dane County Humane Society, adoption, spay and neuter, and more. APHE was a valuable resource during my time as a humane educator, and I am very excited for the opportunity to serve other humane educators as an APHE Board of Directors member and share my experiences with this organization. Humane education is a growing field of education teaching compassion and empathy to our future generations, and I want to be a part of this positive change on the world.

### 2. What abilities do you have that you feel would be an asset to the organization?

My skills as a previous humane educator and a current fundraiser have prepared me for the responsibilities for the role of an APHE board member. Two degrees in education, almost 3 years of experience as a humane educator, as well as my previous experience in education, has provided me with knowledge and hands-on skills that will have a positive impact on this organization. I have created and enacted lessons and educated thousands of people in Wisconsin and beyond, and believe my teaching experience has provided me with a solid foundation to be a board member for an education organization. I have familiarity with classroom management and teaching across wide age levels, as well as abilities in the world of fundraising and advertising. I am responsible for raising over \$150,000 for Dane County Humane Society, and have already exceeded my goals for this year's budget. My fundraising abilities would assist APHE in continuing their endeavors of empowering those who promote empathy by raising funds to provide resources, scholarships, and more to members. I also have assisted in advertising hundreds of events for DCHS, spreading the word of my organization and promoting our events to engage more community members and raise more funds for our animals in need.

### 3. How will your experiences in the field help you to be a quality board member?

My knowledge and experiences in humane education and fundraising would make me a quality board member and provide a positive impact on APHE. My fundraising experience would be beneficial to my role as a board member with APHE to help fund its mission and provide support to the development committee so scholarships, resources, and quality presentations and conference experiences can continued to be provided to members. I am confident in contacting businesses and donors to discuss sponsorships and financial support, and look forward to using these skills to support APHE. My experiences of planning education programs, camp programs, and major events would allow me to provide valuable support to the conference committee within APHE, and I am excited to use these skills to share the world of APHE with other educators. While I am no longer a full time humane educator, I have stayed involved with the education department at DCHS, providing support to new staff, leading tours and presentations for my community, and spending time with campers and other youth involved with DCHS. I also have the support of my organization behind me, and I am excited to attend the APHE National Humane Education Conference and other mandatory meetings for board members during my term.

### 4. Tell us about your work history in this field.

As the educator, I organized and led over 250+ yearly events which included birthday parties, tours, and camp programs at DCHS, teaching children and adults alike about my organization, animals, and compassion. In 2017, I led 286 education programs, reaching over 4,600 people in my community. As the Donor Relations Specialist I have worked with businesses to who want to support DCHS, organized major events such as Dogtoberfest, which raised over \$15,000, and provided advertising for fundraising efforts, all to raise over \$150,000 to benefit animals in need. See attached resume for details of work history in the fields of humane education, fundraising, and animal welfare.
